USP Reference Standards are sold for chemical test and assay purposes only, and NOT for human consumption. The information contained herein is applicable solely to the chemical substance when used as a USP Reference Standard and does not necessarily relate to any other use of the substance described, (i.e. at different concentrations, in drug dosage forms, or in bulk quantities). USP Reference Standards are intended for use by persons having technical skill and at their own discretion and risk. This information has been developed by USP staff from sources considered reliable but has not been independently verified by the USP. Therefore, the USP Convention cannot guarantee the accuracy of the information in these sources nor should the statements on the label be taken as a guarantee of accuracy. **CAUTION!**

BENZOCAINE

Catalog Number: 1054000

Package Size: 500 mg

Revision Date:

October 12, 2000

EMERGENCY OVERVIEW - This material is irritating to the skin.

-

Common Name: Benzocaine

Formula: C₉H₁₁NO₂

Synonym: Ethyl aminobenzoate

Chemical Name: Benzoic acid, 4-amino-, ethyl ester

CAS Number: 94-09-7

RTECS Number: DG2450000

Che(ic)-13.426n3 1.7 y7.686

SECTION 2 - INGREDIENT INFORMATION

BENZOCAINE

Catalog Number: 1054000

Package Size: 500 mg

Revision Date:

October 12, 2000

low blood pressure; pale skin; slow or irregular heartbeat which may lead to cardiac arrest; blurred vision; confusion; convulsions; dizziness or lightheadedness; drowsiness; feeling hot, cold, or numb; ringing in ears; shivering; anxiety; difficulty in breathing on exertion; headache; and tiredness or weakness.

Acute: Eye, skin, gastrointestinal and/or respiratory tract irritation, and possible contact sensitization.

Chronic: Possible hypersensitization.

Medical Conditions

Aggravated by Exposure: Hypersensitivity to material.

Cross Sensitivity: Persons sensitive to para-aminobenzoic acids, parabens, paraphenylenediamine, or other ester derivatives may be sensitive to this material also.

Pregnancy Comments: Adequate and well-controlled pregnancy studies in humans or animals have not been done.

Pregnancy Category: C (benzocaine gel)

Overdose Treatment: Treatment for overdose resulting from absorption of large quantities consists of the following:

Oral Rat: LD50: 3042 mg/kg

Oral Mouse: LD50: 2500 mg/kg

Target Organ(s): Central and peripheral nervous system

NTP: No **IARC:** No **OSHA:** No

Other: No

BENZOCAINE

Catalog Number: 1054000

Package Size: 500 mg

Revision Date:

October 12, 2000

- Extinguisher Media:** Water spray, dry chemical, carbon dioxide or foam as appropriate for surrounding fire and materials.
- Fire and Explosion Hazards:** This material is assumed to be combustible. As with all dry powders it is advisable to ground mechanical equipment in contact with dry material to dissipate the potential buildup of static electricity.
- Firefighting Procedures:** As with all fires, evacuate personnel to a safe area. Firefighters should use self-contained breathing equipment and protective clothing.

SECTION 7 - PHYSICAL HAZARDS

- Conditions to Avoid:** Avoid moisture.
- Incompatibilities:** Strong oxidizing or reducing agents, acids (especially perchloric and nitric), and bases.
- Decomposition Products:** When heated to decomposition material emits highly toxic fumes of NOx. Emits toxic fumes under fire conditions.
- Stable?** Yes **Hazardous Polymerization?** No

- Spill Response:** Wear approved respiratory protection, chemically compatible gloves and protective clothing. Wipe up spillage. T* TD-0.0008 Tc0.0012 psu2p2u2p mns.3()12(e2)-5.d9.3(3(-3.7(c2((es-5.35.2i5.(n)5.m
